## UX Developer

[vsuykyasmbp@hotmail.com](mailto:vsuykyasmbp@hotmail.com)

Phone. +54 223 691 4591

Mar del Plata, Buenos  
Aires - Argentina.

[LinkedIn](#) [GitHub](#) [Portfolio](#)

I'm a Frontend developer specialized in UX. I possess strong skills in front-end web application development, using cutting-edge technologies such as React and Angular. My goal is continuous professional growth, aiming to provide innovative and efficient solutions.

## PROFESSIONAL EXPERIENCE

### Frontend Developer - Andromeda LATAM

Jun. 2024 – Present

Chaco 1670, Mar del Plata, Argentina.

Development, maintenance, documentation and testing of web apps, in close collaboration with Design and Backend. Integration with third-party apps.

- Technologies → Front: HTML, CSS, JavaScript, TypeScript, Angular, Tailwind and SASS.

### Frontend Developer - Crunch DNA, Inc.

Jul. 2023 – Jun. 2024

66 W Flagler Street STE 900 Miami, FL 33130 United States.

Development, maintenance and documentation of the first automated marketplace health diagnosis web application. Implementing interactive components and UI in close collaboration with the design and backend team. Performing automated testing and debugging of code and participating in code reviews with constructive feedback to my colleagues.

- Technologies → Front: HTML, CSS, JavaScript, TypeScript, React, Bootstrap and SASS.

### Full Stack Web Developer - Agenddo

Nov. 2022- May 2023

Moldes 2394 1 B, Buenos Aires, Argentina.

Development of a website that makes a platform available to professionals who sign up for them to control and organize their activity, and an online store for their clients to schedule their services. The app includes: Registration and login as owner or receptionist, load of professionals, scheduling services by calendar with availability control, schedule management, customer record, online payments, notifications by emails and WhatsApp, sales and professional performance metrics.

- Technologies → Front: React, Redux, CSS, MUI, SDK de Mercadopago and React google charts. Back: Node.js with Express, implementing Cloudinary, Bcrypt, JSON Web Token, Nodemailer, Mercadopago, Mobbex and Ultramsg API. Database: MongoDB and Mongoose. Deploy: AWS, Nginx and Hostinger.

### Full Stack Henry Assistant

Aug. 2022- Jan. 2023

Henry Bootcamp, Buenos Aires, Argentina.

- Managed 'teaching assistants' teams, tracking and analyzing their experiences.
- Drafted diagnostic reports and process projects of improvement for the Bootcamp.
- Organized group collaboration sessions and pair programming.

## PROJECTS

### Backend Developer – Tarjetas Mágicas

nov. - dic. 2023

Chviri4ta y McDonald's, Guatemala.

Design and development of the backend for a Christmas messaging app with integration with an AI API to convert text to speech.

- Technologies → Python, Django Rest Framework, drf-spectacular, DigitalOcean Spaces.

### Full Stack Web Developer - SnorInn App

Sep. - Oct. 2022

Henry Bootcamp, Buenos Aires, Argentina.

Working with a team implementing agile development methodologies, with one-week sprints, presenting progress on the development of a complete hosting management app to a Product Owner. Where my main contributions were the creation of the user profile, controlled review form, calendar reservation system, registration/login with authentication and notifications via mail.

- Technologies → Front: React, Redux Toolkit, TypeScript, CSS and Bootstrap. Back: Node.js with Express, implementing Cloudinary, Bcrypt, JSON Web Token, Nodemailer and Stripe. Database: MongoDB and Mongoose.
