LinkedIn   GitHub

I'm a Full Stack web developer with experience working with React, Redux, NodeJS, SQL, MongoDB and TypeScript among other technologies in the sector. I stand out for my creative thinking, teamwork skills, self-taught capacity, great adaptability and positive thinking.

TECHNOLOGIES

HTML, CSS, JavaScript, React, Redux, Node.js, Express, PostgreSQL, SQLite, Sequelize, MongoDB, Mongoose, TypeScript, Bootstrap, SCRUM, Git, GitHub.

PROJECTS

Full Stack Web Developer - SnorInn App   sept. 23 - oct. 20
Henry Bootcamp, Buenos Aires, Argentina.
Working with a team implementing agile development methodologies, with one-week sprints, presenting progress on the development of a complete hosting management app to a Product Owner.
- The app included: searches by name, filtering, sorting, paging, room creation and editing, registration and login with authentication for users and room administrators, reservations by calendar with availability control, payment platform, possibility of making comments and rate your reserved rooms, notifications by emails, view of reservations and favorite rooms in the user profile and a chatbot.
- In its development, it was used for the Front: React, Redux Toolkit, TypeScript, CSS and Bootstrap. The Back was developed with: Node.js with Express, implementing Cloudinary, Bcrypt, JSON Web Token, Nodemailer and Stripe. For the database: MongoDB and Mongoose.

Repository - App

Full Stack Web Developer - Pokémon App   ago. 26 - sept. 13
Henry Bootcamp, Buenos Aires, Argentina.

- Design and development of a Pokemons App with the following functionalities: visualization of Pokemons, route to their details, searches by name, filtering, sorting, paging and creation of pokemons.
- In its development, it was used for the Front: React, Redux, and vanilla CSS. The Back was developed with: Node.js with Express. For the database: PostgreSQL and Sequelize.
